

LAST EDITION. MORE WHITWASH.

So It Is Intimated the Donovan Reinvestigation Will Result.

Examining Board's Secretary Discredits the Accusers in Advance.

Is the Gouverneur House Physician's Version to Be Accepted.

The Board of Examiners, which last Tuesday exonerated House Physician Donovan, of Gouverneur Hospital, from the charge of extortion, will meet at Gouverneur Hospital tomorrow afternoon to reinvestigate the case.

This Board will do in pursuance of the order of President Porter, of the Board of Charities and Correction, to cite the complaining witnesses whose testimony had not been taken on the first hearing.

Dr. Lawrence Johnson, of 363 West Twenty-eighth street, who is Secretary of the Medical Board of Examiners of Gouverneur Hospital, was seen this morning by an Evening World reporter and asked whether the new investigation would be public.

"Private, of course," replied Dr. Johnson. "Why all you got at the first hearing cite the witnesses who made the charges against Dr. Donovan?"

"You see," explained Dr. Johnson, "we have not the power to administer an oath, and so we thought that, allowing even that those witnesses would reiterate their charges, we had no other course left to pursue than to judge by what they said, and Dr. Donovan on the mere principle as to who would be more apt to lie—a reputable doctor whose antecedents were good, or a set of men of whom we could know nothing at all."

"And so you dispensed with their presence altogether?"

"Precisely. But," added Dr. Johnson, "since President Porter desires it, we shall certainly cite those witnesses now."

"But, won't you be guided by the same predetermined principle of judging between them and Dr. Donovan?"

"Well, how else can one judge where the question is one of veracity?"

"Did you, Doctor, take into consideration at the first hearing that Dr. Donovan's assertion that the \$9 given him by the Friedmans out of gratitude would amount the Friedmans as most ungrateful people as having immediately after the gift denounced Dr. Donovan as an extortioner?"

"You see," responded Dr. Johnson, "the man who made the affidavit charging Dr. Donovan with extortion was not the one who gave the money."

"Why will you not allow reporters to be present at the investigation?"

"Why, the Examining Board is not a judicial body. Its action is binding upon nobody. It can only recommend a certain line of action to the Charity Commissioners, which they may accept or reject at pleasure. In a word, it is a wholly private affair, and don't see why reporters should be so anxious to attend it."

As Dr. Donovan's term as house physician expires on the first of next month, is there any way of punishing him if it is found on the new investigation that the complainant's story is entitled to credence?

"No, I don't see any," replied Dr. Johnson, "his diploma cannot be taken from him by any power on earth, and he can only be prevented from practicing as a physician under it if found guilty of a felonious offense by a proper court."

President Porter, of the Board of Charities and Correction, was also seen this morning by an Evening World reporter.

"The public will get entire satisfaction from the Medical Board of Examiners," was all he would say.

MISSING DR. JOHN KERTELL.

He Is Supposed to Have Had \$15,000 with Him.

Disappeared from Hoboken After Celebrating Release from Quarantine.

The Police Department of Hoboken is in a quandary to account for the peculiar and sudden disappearance of Dr. John Kertell, a German physician of some note, who landed in that city on the afternoon of Sept. 19.

The missing man was a first cabin passenger on the steamship Rugia, the third of the Hamburg-American Packet fleet to bring cholera to this port.

No exception to the stringent quarantine rules was made in the case of Kertell, and he was obliged to remain with other cabin passengers in quarantine for two weeks.

According to his own story, as related to several acquaintances while in his cups aboard ship, he was a graduate of Heidelberg University, Germany, and the possessor of a considerable fortune left by his father, who was a wealthy Bavarian landowner.

A few years ago he took an American girl, who was touring through Germany, for his second wife. The non-jacoon was scarcely over before he discovered that his wife was not the girl he had married, but a woman who had enticed him to marry her.

His most intimate friends, both of whom he had known for the first time while on board the Rugia, were Otto Dietrich, who is now stopping at the Hotel de Ville, and John Kertell, who is now staying at the Hotel de Ville.

His last intimate friends, both of whom he had known for the first time while on board the Rugia, were Otto Dietrich, who is now stopping at the Hotel de Ville, and John Kertell, who is now staying at the Hotel de Ville.

COLONIES OF VOTERS.

Alleged Republican Plot Unearthed by Chairman Harbity.

Negroes Being Colonized in New York, New Jersey and Indiana.

The announcement of the Democratic National committee, announced today that he had discovered evidence of a gigantic plot on the part of the Republicans to colonize New York, New Jersey and Indiana with colored voters.

The evidence, Mr. Harbity said, was so complete that he had wired to the various county chairmen in the localities referred to, stating full particulars, and giving directions for electing the plot.

Mr. Harbity is thoroughly convinced, he says, that the Republican committee, through the Duke of Albany, of Indianapolis, has organized a plot to carry Indiana by frauds far more extensive than the famous "blocks of five" scheme worked in Indiana in 1888.

The locality selected in New Jersey for the center of the negro voting colonies is said to be at Rahway, and the New Jersey State and county chairmen have been put on their guard.

Strict watch will be kept on Martin and his co-voters in the alleged plot to colonize voters, and if the scheme is persisted in the machinery of the law will be invoked to its fullest power.

The announcement has created intense excitement in political circles. Mr. Harbity says his evidence is very circumstantial and definite and he will fight the plot to the bitter end.

The Anti-British League of Irish Republicans has been formed, with headquarters at the Ashland Hotel.

A Cleveland and Stevenson banner was raised last night at Willis avenue and One Hundred and Thirty-third street by the campaign clubs of the First and Second Assembly districts of the Twenty-ninth Assembly District.

Mr. Harbity, of the New York State and county chairmen have been put on their guard.

"THERE'S MANY A SLIP 'TWTX THE CUP AND THE TIP."

He Will Take an Active Part in the Campaign. He Will Make Several Speeches for Various Causes.

Alger is regarded as a very big acquisition by the Republicans. He was a candidate against Harrison at New York's election, and did everything to defeat the President, even after he saw that he had no chance for his own nomination.

The announcement has created intense excitement in political circles. Mr. Harbity says his evidence is very circumstantial and definite and he will fight the plot to the bitter end.

GEN. HUSTED'S FUNERAL.

It Will Occur at 3.30 from the Family Home in Peekskill.

PEEKSKILL, N. Y., Sept. 29.—The funeral of the late Gen. James W. Husted will take place this afternoon at 3.30 p. m. from the Husted residence in this village.

The service will be conducted by the Rev. William Fisher Lewis, rector of St. Peter's Episcopal Church, of which Mr. Husted was a member.

The Rev. Lea L. Quaker, of Bedford, an intimate friend of the Husted family, and who officiated at the funeral of General Husted's father and mother, will assist in the service.

The school children will be drawn up on either side of South street as the funeral cortege passes.

The remains will be interred in the Hillside Cemetery about two miles from Peekskill.

Two Hundred Men Eager to Shoot the Desperado on Sight.

DALLAS, Tex., Sept. 29.—Commodore Miller, the famous desperado, is giving his pursuers a lively chase. Yesterday near the village of Wylie, on Muddy Creek, four bloodhounds came upon the fugitive. He shot the dogs and the dogs shot him.

Police Officers Charles Daniels, Rob Sanderson, Bob Corwell and Jim Lewis, were within fifty feet of him when he killed the dogs.

They ran Miller into the bottom of Creek, where, after a brief struggle, he was killed.

Two hundred men were gathered about the scene, and the bodies of the dogs and the fugitive were taken to the village of Wylie.

Miller was a well-known desperado, and had been in the habit of shooting his way out of difficulties.

A PROBABLE COLORADO HORROR.

Terrible Explosion Believed to Have Occurred at Buck.

COLORADO SPRING, Colo., Sept. 29.—At midnight intelligence was received in this city by officials of the Colorado Midland Railroad stating that a terrible explosion had occurred at Buck, Colo., at the mouth of the famous Hagerman Tunnel.

A large quantity of powder was unloaded at Buck and was waiting to be taken to the mine when the explosion occurred.

Shortly after the passage of the train a loud explosion was heard by those on board, and the trainmen were under the impression that the powder at the depot exploded, and that the train was in danger.

People standing near by, were blown to atoms. No details are yet received, as the telegraph operator is unable to raise any one at Buck.

Colorado Coal for Chicago.

It Can Be Shipped as Cheaply as Fuel from Pennsylvania.

DALLAS, Tex., Sept. 29.—In view of the extensive use of the Pennsylvania coal barons, the Rocky Mountain News says: "There is no reason why the bituminous coal of the Rocky Mountains should not be carried to Chicago at as low a rate as anthracite from Pennsylvania."

It is almost as hard, equal in heating power, and when prices are considered, is as cheap as the Eastern product.

Colorado coal will drive the Pennsylvania product out of the Missouri River market. It can meet them on equal terms in Chicago.

The Colorado coal barons are now in the habit of shipping their coal to Chicago by the Great Northern and the Northern Pacific.

LAST EDITION. SUSPICIOUS CASES.

Health Board Investigating Them at Reception Hospital.

One Patient Is Dead and His House Quarantined.

No More Deaths or Cholera Cases Reported Down the Bay.

The Health Board's bulletin, issued at 10 o'clock this forenoon, stated that no cases of cholera had appeared in this city since Sept. 19.

Half an hour later it was announced that two very suspicious cases were being investigated to-day at the Reception Hospital.

The first case was that of Benjamin De Sezent, seventeen years old, who had been found ill on the street and taken to Gouverneur Hospital. Here his symptoms were found to resemble those of cholera and he was transferred at once to the Reception Hospital.

The house at 255 West Twenty-ninth street, was at once put under quarantine. Biological examinations will be made to determine the cause of these cases.

The second case was that of James Miller, who is in charge, said this afternoon that he was satisfied the case of Benjamin De Sezent was not cholera. The man was only troubled with a diarrheal complaint and would probably be discharged to-morrow.
